Job description

Job content

Survey about the structuring of the traditional saving and credit organizations.

Aim of the stage

The aims of the study about the structuring of the traditional saving and credit organizations are shown below:

1. To produce a list of the traditional saving and credit organizations existing into the area.
2. To analyze the form of the organizations and the saving products which are proposed to the rural population.

Job content

3. To lead a study about the ways of life, the resources of the incomes and the family budget of the rural population. Include also the specific needs of the women about the credits and the possibility to increase of their economics possibilities.
3. To formulate some improvement proposals and structuring of the microfinance system into this area.

The aim of the stage, on the one hand, is the realisation of a market study about the saving and services through the microfinance establishment and the informal structures saving and credit.

On the other hand the survey must consider the household on the purpose to understand the request of financial services.
